

eBeam Training 1 - Essential

This on-site course will provide you with all you need to know to set up your eBeam mobile interactive whiteboard system in your classroom and how to present using the integrated eBeam software.

Course content

Understanding your eBeam system

- The components of an eBeam interactive system
- How eBeam works
- Connecting eBeam to your PC and projector

Getting started

- How to calibrate your screen image
- Working with the eBeam tool palette
- Understanding the eBeam stylus buttons
- Using the eBeam stylus as a mouse
- Creating ink with the eBeam stylus
- writing annotations over the projected image
- How to save your annotations
- How to use the eBeam screen recorder

eBeam Scrapbook

- What is Scrapbook?
- Exploring Scrapbook's menu system
- Writing in Scrapbook
- Importing images into Scrapbook
 - From a file on your PC or network
 - Directly from the internet
 - From the Gallery
- Creating shapes in Scrapbook
- Saving and distributing your Scrapbook file

Working with Microsoft PowerPoint

- Controlling PowerPoint with eBeam
- Writing and saving annotations in PowerPoint

How the training works

Everyone who attends an eBeam training program will be fully engaged in the process. You will be working in pairs, sharing a desktop PC and following the trainer with activities from the very beginning - learning by doing. Teachers take turns working on the interactive screen while the rest work at their PCs familiarising themselves with the feature set and playing with the software.

Course length - 120 minutes

For a maximum of 8 delegates

Bespoke courses are also available

Additional costs for travel and accommodation may be added to the standard module price

Navitas Training (Official UK trainer for eBeam) bring everything to you. This includes a portable computer network pre-loaded with all the software required for the training, an eBeam mobile whiteboard system and data projector.

Navitas Training specialise in how to use systems that help you think, conduct meetings and create presentations.

eBeam Training Programs

eBeam training will help you transform your classroom or meeting room into interactive and collaborative spaces using eBeam portable interactive whiteboard technology. Choose from training for education or corporate, business and public services and get up to speed quickly with the introductory programs or become confident eBeam users with the advanced levels. The programs all feature high levels of hands on learning while being guided by our experienced trainer.
